Subject: RE: Fire Access - Lee Ave in Balboa Reservoir Development

Thanks Chad. Mike, Kamal, let me know if it would be helpful to meet and go over the drawings. We've received approval from SFFD in the past to use narrower (ie 2' wide) islands to separate bikeways and travel lanes as your outriggers could be placed over them, so we suggested those here. I'd be happy to discuss the overall design with you, if you like.
Thanks – hope you have a good weekend,
Mike

Subject: Fire Access - Lee Ave in Balboa Reservoir Development

Greetings Mike,

SFFD Captain Patt and FPE Andrawes have reviewed all streets in that development and will forward you their comments... I have forwarded them the 2 Bicycle Lane options for their review. Feel free to contact them directly for any questions as this street is within their development.

Good day,

Chad
