Fire truck turning templates are attached. The Kittelson memo presents vehicle and transit trips based on the Developer's Proposed Option with a 750 space garage and the Additional Housing Option. Are you looking for something specific that is not covered in the memo?

Hi Karen,
Thanks for these materials. One edit to your notes, based on looking back at my own notes from our last meeting—SFMTA asked to see turn templates as well as the garage operations and traffic volumes (you did note both of these). When will we see the turn templates and traffic volumes?
We will look forward to discussing Lee Ave on Weds with you and the team.
Best,
Carli

All,
I wanted to pass along our notes from the last MTA meeting in preparation for Wednesday's infrastructure meeting.

Per the notes, we are attaching:
1. Diagram showing garage locations, entrances and number of cars in each.
2. Draft Transit Assessment from Kittelson (with comments)
3. Civil utility section

Please note that all of these documents are in draft form and subject to change as the project develops. We welcome any comments and look forward to discussing on Wednesday.

We had also noted " MTA to provide clear direction on what needs to be in a DRAFT document to allow review to be most productive." If there is anything else that we can forward ahead of time to assist in the discussion, please let us know.

Thanks,
Karen
