Hi Chris,

Thanks for your e-mail.

Regarding the green paint, as you and I discussed, it can be temporary and can have whatever solubility specifications the PUC desires. We had intended that it would last a couple of months to give people a sense of the space. Also as we discussed, the developer would be responsible for removing the paint at the end of its temporary application. The paint is proposed be the entire footprint of the proposed park, not just the outline, but we would not be painting over the parking space white lines. WE think this type of painting (as opposed to paint) is by far the best way to fully represent the vision for the new park to community members on 9/15 and for other Reservoir visitors for the next couple of months until we remove the paint.

Please let us know if you have any other questions about this.

Thanks,
Scott

Hi Scott,

A couple of questions:

1) What kind of paint will be used to mark the open space (color, water soluble, can it be temporary)?

2) Can chalk replace the proposed paint idea?

Thanks,
Chris

Hi Chris,

Please let me know. It would be best to finalize the application approval very soon since the event is now only 9 days away.

Thanks,
Scott

Hi Chris,

Per our phone call last week, could you update me on the process of review/approval of our application for the 9/15 event?

Thanks,
Scott

Chris,

I got a bounce back from your e-mail system so I hope that by separating the attachments, this series of 2 e-mails reaches you.

Thanks,
Scott

Chris,

Per my phone message to you last week and per Rosanna's guidance, we are submitting an application for an event on the Balboa Reservoir. Please see attached for the application and supporting materials and let us know if you need anything for your review.

Thanks,
Scott

Hi Lawrence,

Can you please send an "In-City Project Review Application" to Joe Kirchofer who is copied on this email. We do not require the full committee to vet this proposal.

Thanks,
Christopher Wong
