Subject: RE: Balboa Reservoir Subsequent EIR

Hello Mr. Bieringer,

Thank you for letting me know about the posting that was difficult to read. I'll ask the consultant to check on that.

The notice of availability/notice of a public hearing is attached and is also available (along with the draft SEIR) at <https://sfplanning.org/environmental-review-documents>

The subsequent EIR tiers off the analysis that was done for the Balboa Park Station Area Plan EIR, which was certified in 2008. See "1.B Type of EIR" in the draft SEIR for more information.

Sincerely,

Jeanie Poling

Dear Ms. Poling, I live 3 blocks from the proposed Balboa Housing Project on the PUC owned parking lot at CCSF. The other day I was walking my dog there and I saw, taped to a circular light pole, a notice of a hearing for this project but it was extremely difficult to read because the poster was wrapped around the light pole. I have 2 questions for you:

- 1) Is it possible for you to send me, as an attachment, this notice so I can review it? and
- 2) The notice did say a 'subsequent EIR'. What is it subsequent to? Does this current analysis take the place of a previous EIR? What is the relationship between the previous one and this subsequent one?

Thank you in advance for your answers.

Sincerely,

Garry Bieringer
