**Subject:** RE: Balboa Reservoir draft subsequent EIR

Hello Mr. Muehbauer,

I'm responsible for the draft SEIR, not the non-CEQA transportation analysis, so I can't tell you about the latter. But please see "Aesthetics and Parking Analysis" in Section 3.A, Impact Overview, in the draft SEIR. It discusses why certain topics, such as parking, are not part of the CEQA review for this project.

Thanks,  
Jeanie

I am seeking the draft EIR. Not sure what the other is or how it dovetails. Can you provide a little summary?

Thanks,

Hello Mr. Muehlbauer,

Please confirm that you are requesting the draft subsequent environmental impact report and not the non-CEQA transportation analysis.

I can mail you a CD with the draft SEIR in electronic format, or you can access the document at <https://sfplanning.org/environmental-review-documents>.

You can also pick up a copy of the draft SEIR from the Planning Department's PIC counter (1660 Mission St, 1<sup>st</sup> floor – the first counter on the right when you walk in), or if you let me know your mailing address I will mail a hard copy of the draft SEIR to you.

Sincerely,

**Jeanie Poling**

**Subject:** RE: BRCAC--

Hi all

I wanted to clarify that the hard copies that Mike and Amy talk about being available at the Planning Info counter are hard copies of the Draft EIR. As you know they are very large so we're trying to save trees and not print them unnecessarily. Can you please let me know if you would like a hard copy so we can determine if we need to print additional copies?

Thank you.

Amy- You are correct. I agree. I filed a request for the document and did not receive it on August 7. I started reading it on line, and then received the document a day or two later. It is much easier to read the printed document.

Mike

I highly recommend going to the trouble of getting a hard copy -- it's markedly easier to navigate the various threads with the bound paper (huge) document on your lap.

Available: San Francisco Planning Dept Information Counter, 1660 Mission Street, First Floor, San Francisco.

You will get bounced around, but keep asking until you find the person who knows where they are hidden.

Hi all,

I just want to interrupt your summer for a moment to pass on the developers' non-CEQA transportation analysis. (Attached) It's also available for download [here](#). Scroll down to the bottom of the page. It's also available on the [BRCAC web page](#).

Topics include parking supply and demand, vehicle operations, and the feasibility of a shuttle service.

This will be up for discussion at the Sept meeting. Please don't hesitate to contact the [developers](#), [Leigh](#), or myself with your questions.

Also ICYMI, the Draft Environmental Impact Report was released last week and is available for you to read [here](#). It's over four hundred pages so be sure to give yourselves enough time to look it over!

Thanks for your attention on this lovely summer day!
