Dear Planning Commission,

I'm a homeowner in San Francisco and I enthusiastically support the Balboa Reservoir building project. There is strong evidence to support the fact that the more housing we build, the more it will bring down the cost of housing for all. And with 50 percent of it being set aside for affordable housing, I'm confident that this will be a good thing for the neighborhood, and for the city.

Those that oppose the project use the 100% affordable or nothing as a tactic to get nothing built, to maintain the status quo and keep the parking spots for their vehicles, which for some reason they feel they have a right to park on public land. We need to make this city a livable one with great public transportation, fewer cars, and more housing for those who cannot afford the market rate housing.

Please approve this project so we can develop housing for those that need it most. Homelessness or the threat of it is the most critical issue facing our city today, and this is a very important step toward its resolution.

Thank you in advance for your support of this project, Liana M. Crosby
