Subject: RE: 45 TDM recommendations

Hi Christine,

I didn't say anything about TDM but I did say this about TNCs:

In February 2019 the planning department updated its transportation impact analysis guidelines. These guidelines provide methodologies and criteria for undertaking transportation review in San Francisco. They include updated travel demand rates that account for vehicles operating as transportation network companies, or TNCs. The Balboa Reservoir Project's transportation analysis is based on these rates and, therefore, analyzes the impacts of TNCs.

Thanks,
Jeanie

I'm referring to a statement made during the recent planning hearing I believe made by yourself regarding 45 recommendations coming from the TDM document?

Thanks,
Christine

Hi Christine,

Please clarify what documents other than the draft subsequent EIR you are referring to.

Thanks,

Jeanie Poling

Hi Jeanie,

At the planning meeting last week there was a reference to 45 recommendations that came out of the TDM. I've looked at the draft and final versions but am not seeing a specific list. Is there another document to look at for this or are the 45 recommendations spread throughout the two documents without a clear delineation?

Thanks,

Chris Hanson
