Subject: Public Comment on Draft EIR Balboa Reservoir

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

I'm writing to you about the Draft Environmental Impact Report for the Balboa Reservoir Project. I had attended your 9/12 /19 meeting but was unable to give public comment because the time for public comment had gotten moved back and I had to get to my job.

What I had wanted to say was that I'm deeply disappointed in the Draft EIR . I feel it is tragic that it fails to consider City College of San Francisco and its viability, health and importance to the community as a critical and important element in any plans for development of the Balboa Reservoir.

CCSF is San Francisco's only community college and it is a precious and AMAZING place. It is a place where EVERYONE can come to learn. It's selection of class offerings each semester is unbelievable..... I personally have a HUGE list of classes that I'm hoping to get to take sometime in my

lifetime. It is accessible to students of all income levels and to students of all ages and cultural backgrounds. This place is one of the main treasures of our city and that is why the Balboa Reservoir must not be sold off for private developmentand builder greed. The city is over run with this exploitive profiteering and it can't be allowed here.

CCSF has had use of this public PUC land for many decades and it is necessary for the students of CCSF in order for them to be able to access this life changing education that CCSF offers. Students attending CCSF need easy comfortable access to their classes and if the Balboa Reservoir is sold off for private development it will kill CCSF as we know it.

As a low income working mom I needed to use the Balboa Reservoir all the time to be able to get to my child development classes. I could not take my kids to school on the bus and then bus to CCSF and arrive on time and then get to work. It would have been an impossible. I would have had to drop out of school and not pursue the career in education that I dreamt of.

Please let CCSF do the job it does best which is offering rich and valuable educations to the people of San Francisco. Let's take care of this precious College and not threaten it all the time with greed based land grabs just because it 's happening ALL over the city. This is a place for future generations also ... Future generations that if they can have access to the education will be the ones able to envision and help create the changes humanity needs. Our future educators, social workers, artists musicians, political representatives, gardeners chefs, nurses, doctors, scientists , ambassadors and parents will be able to come from this place, if we keep it safe and accessible.

Please don't let these public lands be stolen from this community college that desperately t needs it. If CCSF were a Public Hospital would we consider selling off access to the hospital ... regarding it as frivolous and inconsequential and then provide no parking and thus no easy way to even BE at the hospital? Would we instead ask patients find their own way there on an erratic and congested public transit system?

CCSF offers a lifeline to at least 70,000 people per semester. It is a critical San Francisco resource and is part of the fabric of the city and it needs to be deeply considered FIRST in any type of "land grab" proposal that comes before you.

Thank you for your time and consideration.

Sincerely,

Sally Magnuson
