As a long-time San Francisco resident and voter, I am appalled that the environmental report on the plan to do away with the parking for students on the Reservoir at CCSF did NOT consider the impact it would have on the college, the students, and the neighborhood. '

City College, where I have taken classes, is a jewel in the crown of San Francisco, a vital community resource used by people of all economic and racial groups. It is wrong (and sneaky) to ignore its needs when planning to take away one of its key parking resources.

The planning for this project must take those issues into consideration. Not everyone has the luxury of being on a MUNI line to get to the college or the luxury of a schedule that allows waiting for a MUNI line.

The developer should be required to build a parking facility which replaces most of the lost parking spaces and makes them available for students. I'd rather see a taller building with more parking underneath or fewer buildings and a parking structure.
