This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hi Seung Yen,

It was great chatting with you. Attached is the GHG reduction/offset commitment letter we received from the applicant that I mentioned in our phone call. It discusses the priority for the GHG reductions/offsets, as well as the timing for the construction-related and operational offset contracts. Please note this language is consistent with language from other AB 900 projects in the City/County of San Francisco, such as the 3333 California Street Project.

Feel free to reach out to me if you have any questions or concerns.

Cheers,
shannon
