Hi Amy and Jennifer,

Thank you for the productive conversation last week. Apologies for the bit of a lag responding, but it has been a hectic few days. I will look into the issues you raise more and get back to you with what I find out.

Regards,
Tony

EXT

Tony,

I want to add my thanks to that of Amy and take a moment to provide some clarification to one of my comments.

During our conversation I mentioned that the neighbors on the 500 block of Flood Avenue gathered signatures for a petition for safety measures, particularly a stop sign, at the Flood and Ridgewood intersection. I threw out an approximate timeframe of ten years, but this happened sometime in the 2005 to 2011 timeframe. Bond Yee was the Director at the

time we received refusals. Subsequently, the corner on Flood just East of Ridgewood was painted red, which increased visibility from one direction. However, it did not increase visibility into vehicles traveling from Havelock along Flood at Ridgewood. There is no stop sign on Flood at that intersection, and drivers and bicyclists at the Ridgewood stop sign have difficulty seeing vehicles coming from the right along Flood Avenue. Since there are no stop signs on Flood, vehicles on Ridgewood are in danger of being hit as they turn left at the T.

If you have any questions or comments about this issue, please don't hesitate to write.

Regards,
Jennifer Heggie

Hi Tony --

Thank you for participating in the meeting this morning. We appreciate your time and effort to address our concerns.

I will follow up about the Judson/Frida Kahlo intersection, and the Judson/Foerster intersection.

regards,
Amy
