Okay -- yes, that covers it, with the audio.

Hi Amy,

Thanks for your thorough review of the minutes. The difference from the previous minutes in terms of CAC Discussion is not necessarily intentional, we simply had many City staff out sick during that meeting and I was the only one able to take notes while participating as well. So the minutes reflect that difference. The full audio file is also posted to the CAC page, so there are complete records of the meeting in any event.

Happy to discuss further and thanks for understanding! Leigh

Leigh,

I found no typos to speak of, but I'm writing to ask, before the meeting this evening, about the fact that there are no recorded answers to the CAC members' many questions in Section 3-A.

I see on previous meetings' minutes that "CAC Discussion" is more often a record of comments from committee members, but in Feb we seem to have had a great many questions.

Are the answers that were given at the time by presenters in the meeting not considered part of the public record? In Sept, the presenters' answers to our numerous questions were duly recorded in the minutes, to contrast.

Is this reduction part of the down-sizing of the BRCAC in terms of time and personnel?

Thank you --

Amy
