Hi Jennifer,

Here's our environmental team's response: The San Francisco Planning Department used the best available information about City College at the time of publication in the Balboa Reservoir Environmental Impact Report. Please see response CU-1: Cumulative in the Balboa Reservoir Response to Comments document for more details (pages 4.G-3 to 6).

Hope this answers your question. Feel free to follow up with Jeanie if you have any further questions.

Best,

Seung Yen

Hello Seung Yen,

Please review the attached Notice of Determination of a proposed addendum to an old (2004) City College EIR. Please notify us if the Balboa Reservoir EIR completely covers the expected changes to the environmental impacts. Let us know if we need to send this to Jeannie Poling as well?

Thank you,

Jennifer Heggie
