Susan & Chris –

We put together the intersection volumes tables. I have asterisked the study intersections where we didn't go through the exercise of project trip assignment, as our project trip assignment was used for the transit assessment along Ocean and FKW and didn't include some of the locations where we collected existing counts.

Also note there is a table for "reassigned parking trips" these are vehicle trips that under existing conditions are destined for the west basin/lower lot and with the developer's proposed option would be reassigned to the public parking garage.

Subject: Another question

Amanda,

I'm curious if you have intersection volumes for the proposed project options, similar to the sheet you provided for San Ramon Way? If so, can you send that to us? Sorry if I missed it before.
