Subject: Balboa Reservoir - Noise section

Hello all,

I finished reviewing the section. I have a few **red highlighted** comments for one or more of you in that section. The most substantive comments stem from my confusion on Impact NO-1 in terms of impacts, mitigation measures, and after mitigation results; questions on Impact NO-2 conclusion; the purpose of the mitigation measure for Impact NO-4; and impact conclusion of C-NO-1. Note: I referencing the impact numbers by the way you relabeled them.

Can we please discuss before we send this back to the consultant?

Thank you,

Wade Wietgreffe, AICP, Principal Planner
