Liz and Wade –

I've attached the draft text of the Balboa Reservoir Transit Mitigation Measure. I have included a few notes in the comment bubbles based on our conversation last Friday and to explain my approach to certain sections. I've also included the example mit measures Liz referenced from Potrero Power Station and India Basin beginning on pg. 3.

Please reach out if you/SFMTA have any questions, or want to talk, before our 6/20 meeting.

Thanks,  
Amanda
