Thank you Ilaria! This is great. Some of them could be our discussion items.

I just made this word file to compile all of our comments (still very drafty at the moment). Maybe we can chat Monday to talk about which one goes where in this Word file? OR feel free to add to it if you'd like to do so. [https://sfgov1-my.sharepoint.com/:w:/g/personal/jeremy\\_shaw\\_sfgov\\_org/EUGljdsLM3ZGkzVDT3TUErWBEJ0h4Dgr8a9b-tUwHGhp-w?e=MaGQUP](https://sfgov1-my.sharepoint.com/:w:/g/personal/jeremy_shaw_sfgov_org/EUGljdsLM3ZGkzVDT3TUErWBEJ0h4Dgr8a9b-tUwHGhp-w?e=MaGQUP)

Best,  
Seung Yen

Seung Yen,  
Here are some general comments. I was not sure what scale of comments you needed- so please use whatever you see fit. I have lots of other comments (like edits and graphic changes) but it sounded like those will be needed later on. Thanks and call me if you have questions. (I have AWS tomorrow).  
Talk soon,  
Ilaria

- Precedent photos should have more descriptive sections. Are they currently placeholders? 9Except for section 134-137 which is very detailed)
- I find numbering of standards and guidelines very confusing- For example; S.6.3.1 discusses program but G.6.3.1. discusses the specifics of Community Terrace and Stepped Seating., Is there a way of differentiating the numbering so it doesn't appear they are connected (as in fact they are not?)
- Adjust page order: page 108, 111, 109, 110
- Should we acknowledge that the whole PUC open space section will need to be negotiated? Perhaps both standards and guidelines will need to be re-drafted based on that.
- Pg. 130/131- I would show the bike path in the street section since it's a shared street
- Pg. 139- Lighting: can they consider also uplighting inset in the ground?
- 140-142: I would label diagram on page 140 with actual plant species: (i.e. Tree Type 1: Coast Live Oak, Lemon-scented gum, Etc.)

Thanks, Ilaria
