**Subject:** RE: Balboa DSG follow-up (timing?)

Hi Team,

I appreciate folks wanting to get together and talk about design/open space – but I am unclear the urgency and also sensitive to everyone's time.

Are you thinking we will send them additional comments to inform the next round of the DSG? Or, that these discussions inform the park ownership, additional housing options, upcoming infrastructure meeting, CAC meeting?

I cannot join you this morning, so if you feel like you need to have the meeting please go for it – but, I will appreciate understanding your thoughts on your time commitments/plan for the next weeks priorities while we await the next draft early April.

Thanks  
Lisa

Luiz and Ilaria wanted to meet earlier to talk about design issues. We will focus on building and open space side, and I will update you later.

One thing I want to talk about is scheduling planning commission hearing for the project some time in June. EP told me Citywide should do an informational hearing on the project before draft eir goes before the PC.

Hi,  
Sorry – I am too behind on other deadlines... Do you think it's essential we meet today or might be more productive after the infrastructure meeting? I'm not feeling like there is anything to prep for call with Leigh either?

Thanks  
Lisa
