Hi -

I incorporated your comments into the main file, but modified some and removed some.

regarding the difference of sidewalk width/buffer along Lee: there's a memo that we are still finalizing the dimensions, so I thought we didn't need to comment on them.

raised crosswalk and curb ramps - Fire/ADA only allows 4" raised crosswalk, therefore curb ramps are needed...

I will share the main file soon so you will see how I modified some of your comments. LMK if you have any concerns. Thanks!

Sorry I had to attach it. I had problems saving it to the main folder.  
I put my comments in red.

Thanks,  
Ilaria
