Thanks Leigh,

Margaux, This project's proposal and goals work brilliantly with our work in the community and hopes to connect the various family oriented public serving amenities in the area. Please do keep us posted as your work progresses and let us know how we can coordinate. For example we host a quarterly CAC meeting with broad participation from the community. Also our design team has done some great work on analyzing the existing open space and surveyed the community at open houses and meetings on the proposed uses. We'd love to learn from your work with the community as well.

Open Space presentation" <http://www.balboareservoir.com/wp-content/uploads/Open-Space-Open-House-Boards-web.pdf>

Open space open house summary of comments: <http://www.balboareservoir.com/wp-content/uploads/Open-Space-Open-House-Summary-web.pdf>

Note we did make a major shift in the park layout this spring: we went from the Texas shape to more of a South Park shape. Please use the updated diagrams for any public work you might do to minimize confusion = check out slides 31 to 50 to learn about the updated design and some the reasoning. [http://default.sfplanning.org/plans-and-programs/planning-for-the-city/public-sites/balboareservoir/BRCAC Combined Presentation 101518.pdf](http://default.sfplanning.org/plans-and-programs/planning-for-the-city/public-sites/balboareservoir/BRCAC_Combined_Presentation_101518.pdf)

Leigh can fill you in on all of this and knows where to find us, if you'd like to talk more.

Best of luck! And thanks for taking on this important project, Kearstin

Best, Kearstin

Subject: Balboa - Ingleside Library open space

Hi Margaux and all,

I wanted to connect you all since there is compatibility between the Balboa Reservoir project and Margaux's efforts at the Ingleside Library. I attached the materials for the Library so you all have them.

Sue & Seung-Yen are the project managers at Planning working on the Balboa project. They will loop Margaux in when staff is reviewing the open space proposals for Balboa so that Margaux can comment with any programmatic insights (like tot soccer).

Kearstin & Joe are the master developer project team and will be managing the implementation of the project.

Thanks, Leigh
