As promised, here is the Powerpoint for the CCSF Transportation Demand management presentation at the next meeting.

As I said earlier, I will do what I can to get the rest of the meeting materials to all of us in a timely manner.

Good idea. If the materials are provided electronically I can review and give some comment even though I'll be out of town.

I am working on that!

I do have the power point presentation on the ccsf tdm. I'll get that out to the committee later today. More to come after that soon, I hope.

Jon, thank you for your note and the agenda. Thank you for doing your best to get the materials from Planning and CCSF in a timely manner. It would be helpful for all of us to be able to study the materials in advance of the presentation. Is it possible for you to ask Planning and CCSF to give us materials before the meeting so we can study the materials and be in a position to ask informed questions?

Thank you.
