Subject: update on staffing
Attachments: 190312 Balboa Work Flow_External.xlsx

Hi Joe and Kearstin

I hope you're both well and you're getting a little break after last night's CAC meeting. I wanted to let you know about some staffing updates on the project here at Planning. Lisa Fischer's role on the project has shifted. She's focusing her work here at the department more on sustainability and so she'll stay engaged as the sustainability lead on the project, but she's not going to be the main point of contact. Seung Yen and I will be stepping in to fill her role. We've updated the attached communications matrix. Please feel free to reach out with any questions. Otherwise, I look forward to talking to you at the next biweekly pm check in.

Best,
Sue
