Captain Patt and FIR Kamal,

Attached are the revised AB-005 with the updated Site Plan and the Lee Avenue Section with the FD Truck and ladder diagram.

In an attempt to make things simpler I did edit the previous pdf document to include the additional wording which you marked on the previous approved document (I am attaching this scanned as reference, though you also have it in your files), except for the Paseo Access requirement which I re-phrased based on our last meeting which said that we would locate the lobby entries at South Drive at the Brighton Paseo.

I believe based on this that this AB-005 is comprehensive in the agreements and diagrams.

Please review and approve if you do not have any further comments. Thanks again for working with us so closely.

Rick
