Mike,

Thanks for the Review,
I have provided summary response to the comments attached pdf.

I would like to set up another meeting to go over and work out any issues in detail when you are available. Karen and I could meet at your office midmorning in the next week sometime if you are in, or when you return.

A number of these items are in process through the Infra-structure group meetings such as Street Sections and FH locations. The draft street sections were provided at previous infra-structure meetings. Of course they are still draft form (particularly Lee Ave), however public streets all meet that criteria described. I believe you have a copy of those draft street sections, however we can provide a new set.

We would like to specifically discuss the comments around Block G as well as the discussions comments and requests provided on the Access Diagram for your consideration.

Please let Karen and I know when it is convenient.

Thanks, Rick
