EXT

Hooray for California we are getting rain. Sadly this means we likely won't get the parking data until early next semester. If the semester starts on Jan 14 can we do the last week of Jan, or should we wait until the first week of Feb?

Fine to collect data between now and Nov 9th -- best to collect data Tuesdays, Wednesdays or Thursdays to avoid folks taking long weekends.

Or to collect data between Nov 26th-December 7th (again, avoid Mondays and Fridays)

If you can't do it during these windows you should wait until next year—classes don't start until the 14th so would have to be after that.

HI all,

We had some contracting issues with the on street parking survey for Balboa Reservoir. Can you please opine on what windows of time the data would be useful? We are wondering whether we have missed the window this semester and need to wait until early next semester. Much obliged.

Kearstin
