EXT

Thanks for the quick response, Mari!

Unfortunately the SFPark.org website is down and I can't access the site you sent over. Are you able to send a GIS file or spreadsheet of the data?

My recollection from looking at a PDF map of this data previously was that it showed individual gray circles for metered parking spots and larger pink bubbles (size corresponding to capacity range) for off-street facilities. I may be mistaken but I don't recall seeing parking supply by block face on these maps, nor any count of unmarked (or unmetered) parking spaces.

Thanks,
Amanda

Yes, all info should be here but let me know if otherwise: <http://sfpark.org/resources/parking-census-data-context-and-map-april-2014/>

EXT

Hi Carli and Mari, our parking data is in! We are trying to analyze it. Do you happen to have the parking supply data. We presume since it was not recommended as part of the scope that Sfmta has it available?

Please advise, kearstin

Kearstin - Do you know where we can find parking supply information for the block faces? I am not aware of any sources for this information.

Hi Amanda,

It was our understanding per the SOW that we were not tasked to collect the supply because it was already well documented. We never received the supply, however, we can certainly collect or verify the supply if needed, but would need to add an amendment to the contract.

Let me know what you think and if you'd like to hop on a call to discuss.

Thanks!
Cameron

Hi, Cameron -

We've taken a dive into the parking data and weren't able to find any parking supply/capacity data for each block face. Can you please send this over? We need this to calculate utilization.

Thanks,
Amanda

Cameron - Can you please help Amanda interpret that data you provided. She is looking for documentation for the data collection and fields. Thanks, Kearstin

It's a lot of data!

Can you provide us with documentation about the data collection and fields? This will be helpful as we sort through and summarize.

Thanks,
Amanda

Hi, Kearstin -

Odd that that zip file won't come through. 3 mb doesn't seem out of the ordinary as far as size goes.

How about you try this OneDrive folder that I set up: https://kittelsonassociates-my.sharepoint.com/:f/g/personal/aleahy_kittelson_com/EiNhnvGgB05Pv70hbF5zZgEBkQdzpl4bfRoXTQbhwM72MA?e=5reIGl

You should be able to drag and drop files in there. Let me know when you've made the data dump and I'll confirm the transfer was successful.

Thanks!
Amanda

Hi - I keep trying to send you the parking data but it seems like it is too big. Do you have a thought on how I can get you a 3 mb zip file easily? Thanks, K
