Hello all—

Please review the attached changes to the Project Description, Transportation and Circulation memo, and review the new (you have never seen this before) Alternatives document.

Key changes to flag on this draft of the transportation analysis:

- Loading analysis of Lee/Ocean Avenues
- Transit analysis for cumulative conditions (explaining the Balboa Station Plan's significant transit impact vs. our Balboa Reservoir less than significant impact to transit determination)
- Addition of San Ramon Way alternative

Review and send me your comments ***in the attached matrix by May 14.***

Reminder: for the Project Description and Transportation and Circulation documents, please limit your comments to changes to previous documents and new material that we have not had the opportunity to comment on before. Redlined versions of the Project Description and Circulation docs are attached, as well as clean versions, so that you can see what has been changed.

Let me know if you have any questions. As always, please **bill your time to the Balboa Reservoir project: 1000722.686102-02**

Subject: RE: Balboa Reservoir ADEIR-2 / IS-screencheck

I'll try to figure out what's happening, but in the meantime, here are three sections attached. Also the redlined version of two of them (alts is new, so no redline).

When I click the box, it also goes to a blank page.

Hi Carli,

Did you try to open or save the files first? See where the red arrow is pointed.

I got it. But, when I click on an item (after logging in and seeing all of the various documents), I get a blank screen. Can you please email me the relevant documents for SFMTA review? I am leaving for a conference this afternoon and want to get things circulated before I go.

Thanks,
carli

Subject: Balboa Reservoir ADEIR-2 / IS-screencheck

Hello. Please email me back to confirm that you've received this email.

The administrative draft EIR-2/initial study-screencheck for the Balboa Reservoir project is available for download via the City's ftp site:

<https://sfftp.sfgov.org>

Username: MCKGBAZBQL

Password: lrcIf3OR

The login above will expire on 5/6/2019 12:00:00 AM

Please provide your agency's input on the project description and anything relevant to your agency's jurisdiction by **May 17**. (SFPUC, I understand you require four weeks for review; please provide your combined comments by **May 28**). Please distribute as appropriate to others in your agency and reconcile and submit all comments from your agency in one document/submittal to me by the deadline.

For those of you who provided input on an earlier draft (all but DPW), you may check the pdf tracked changes versions to see that your comments were adequately addressed. Since the last draft, there have been some revisions to the project description (see discussion of Lee Avenue near Ocean Avenue).

Also, a reminder about upcoming AB900 data transmission deadlines:

June 12 – data transmittal to city attorneys for period between 6/1/18 and 6/11/19.

July 10 – second data transmittal to city attorneys for period between 6/12/19 and 7/10/19. Staff to begin complying with post-DEIR release procedures (i.e., all correspondence must cc a dedicated email address that city attorneys will review and will be posted weekly – further information on this process will be forthcoming)

EIR schedule:

July 24 – publish draft EIR/IS

Aug 29 – draft EIR public hearing at the Planning Commission

March 12, 2020 – publish responses to comments document

March 26, 2020 – EIR certification and project approvals hearing at Planning Commission

If the cross reference field track changes are distracting while you edit the Word documents, please take the following steps: (1) turn off track changes, (2) select all (ctrl+a), (3) press F9. Taking these steps will clear up the cross referenced fields. Turn track changes back on and you can continue with edits. Hopefully this eases your review a bit.

Thank you. Please let me know if you have any questions.
