Subject: RE: Request CCSF Reps at BRCAC Meetings

Thanks for fielding all of these inquiries Jon. I'll certainly be in touch regarding the College and their attendance at the next meeting. On the matter of the DEIR schedule vs. College transportation studies, we will have a response early next week for you to forward to the CAC. Your response was very accurate and a great context-setter.

I also want to flag for you that it looks like we may need to move the MTA transportation item to the June meeting due to the fact that there's a national transportation planners conference the same week as the September meeting (doh) so most MTA staff will be out at the conference. I still think we should focus September on transportation, but perhaps move the MTA Ocean Ave item to June. I'll confirm once I hear from MTA definitively.

Thanks again for managing such a smooth meeting on Monday! Leigh

I have Charmaine Curtis's personal email, let me know if you want it. It may not be the appropriate way to contact her, of course.

Rita, Jennifer, and Amy,

The plan is to TRY to get ccsf people at the June meeting. I will see if we can Dr. Smith as well as Charmaine. Maybe others. I agree that we need more participation from CCSF as well as from SFMTA

which will definitely be at the September transportation meeting. Unfortunately, we do not have subpoena power but I will do my best!

Jon,

The BRCAC meeting on Monday was interesting and we were presented with a lot of information. Thanks for presiding over a well-run meeting.

A number of residents are very concerned about the ongoing absence of anyone in CCSF's Administration at CAC meetings. No one is present to hear from neighbors, nor to hear what we're being told by the development team or representatives from the city which could be different than what they hear in their one-on-one meetings. CCSF administrators aren't available to answer questions about CCSF and the project or address the significant impact parking and other issues will have on the college as an educational institution.

I'm asking the BRCAC, Planning Dept and OEWD to invite, and strongly encourage to attend, Dr Rueben Smith, Vice Chancellor of Facilities, Planning and Construction, and Charmaine Curtis, Project Manager, Balboa Reservoir Development, the June 10 (DEIR status and schedule) and September 9 (transportation) CAC meetings. Dr Smith's email is rsmith@ccsf.org. I've been unable to locate an email address for Ms Curtis.

Rita
