Hi

It's been pointed out to me that the Sept CAC meeting cannot be shifted one week earlier because that Monday is Labor Day.

I'm being asked if the deir comment prod can be extended. I understand that's a big ask...

Thanks Leigh. I am cleared to go to the meeting at 1:00.

I really appreciate all of the support from the team!

Jon

Hi Jon,

Thanks again for meeting with us yesterday re: the upcoming CAC meeting on 6/10. As we mentioned, we will be sending a formal email blast to the whole Balboa listserv today or Monday to remind them of both the CAC meeting and of the upcoming informational hearing at Planning Commission 6/13. I will be sending a notice to the CAC members about the hearing shortly.

I appreciate your willingness to attend the hearing and to speak about the CAC process over the last few years. I'll also be requesting attendance from any other CAC member who would like to attend. As Sue said, meetings start at 1:00pm and are held in City Hall, Room 400. Informational items like ours are typically calendared at the beginning of the hearings. Sue and Seung-Yen will update you as to the timing of when the item will be heard at the Commission when the agenda is published next week.

Finally, attached is a recent memo that explains the SFMTA Ocean Avenue safety project. The SFMTA project managers will be presenting at the September meeting, but I know you are curious.

Thanks, Leigh
