**Subject:** Your Balboa Reservoir Inquiry

Dear Mr. Bernstein:

We are responding to your inquiry to the SFPUC regarding the Balboa Reservoir. Thank you for your telephone call letting me know we could respond to your email address.

City College is well aware of the proposed development plans for the Balboa Reservoir and has participated in the process for several years. Among other things, the College has had a representative participating on the Balboa Reservoir Citizen Advisory Commission since early 2015. In October of 2017, the College's Board of Trustees considered and rejected a resolution that would have expressed an interest in entering into negotiations with the City to acquire the Balboa Reservoir property from the City.

The City complied with its legal notice requirements with regard to the potential sale of the Balboa Reservoir.

Respectfully,  
Rosanna Russell
