Subject: Balboa Informational tomorrow at Planning Commission
Attachments: 20190613_cpc.pdf

Hi Jon and Mark,

Thank you in advance for speaking at tomorrow's Balboa informational hearing. We appreciate the time you take out of your lives for this effort generally, and especially with the unpredictability of the timing for tomorrow. I've attached the agenda again for your reference. We are item 8, however I've been told that the commissioners will move another item up in the list so we'll actually be item 9. My best guess is that the item won't be called until 4pm, but I recommend arriving by 3:30pm. I can also keep you posted via text if you'd like.

In terms of speaking content, we're not asking you to take a position on the project (though you can do so in a personal capacity if you'd like) but instead focus on your participation in the community planning process (creation of Development Parameters, many public meetings), your position on the CAC, and why you think the project is important. You have 2 minutes to speak. I am happy to provide more specific talking points if you'd like – just let me know!

My cell is 646 706 3055 – feel free to use it anytime. Thanks again, Leigh
