Hi Fan,

Yes this matches my understanding of the project and yes I have been in touch with them.

Thanks

Taylor Chang

Hi Taylor,

I'm reviewing the Admin Draft EIR for the Balboa Reservoir Project and wanted to check with you if this description of the project's plans for meeting the Non-potable Water Ordinance aligns with your knowledge of the project. Also, can you confirm that you are already in touch with this project regarding non-potable? Thanks!

- **Non-potable Water.** To meet the goals of Health Code article 12C, some or all of the buildings onsite would be piped with dedicated non-potable water piping supplied to each toilet and urinal and for irrigation purposes. Graywater (the wastewater from lavatories, showers, baths, and washing machines) would be diverted from the sewers by capturing, treating onsite, and reusing it to satisfy these non-potable water demands. Since there would be different developers for each building, a shared district graywater treatment system is not proposed; rather, as each building is constructed, a dedicated graywater treatment system would be installed for that building. Therefore, a dedicated graywater treatment system would be fully developed and coordinated with SFPUC as the project evolves.

--Fan

Hi All,

Please find attached via ShareFile the administrative draft EIR-2/initial study-screencheck for the Balboa Reservoir Project.

A comment log is attached for your use via ShareFile. Please provide comments to me before **COB Wednesday, May 22.**

Thanks,  
Lawrence
