Hello all,

Rosanna has asked for our support at this meeting so it would be great if you could prioritize attending. Her goal is to generate some programming goals and design criteria for the 80 foot easement adjacent to the Balboa project that would showcase SFPUC's priorities. The developer would then do detailed design and construction. If you have time to prep before the meeting, a look at the Asset Protection Standards could be a good idea as well as assessing the surrounding bike network. Cc'ing Will in case you all would like his assistance in this preparation.

Best, Sarah
