Both sound good and let's find a time for a meeting tonight.

Hi Lisa,

Thanks. And definitely understood regarding community support. To that end, may I take a few minutes at the beginning of tonight's meeting to preview this topic for everyone? (Not a presentation, just a minute or two of remarks.) I know that I've done this at a few other CAC meetings this fall, but it's hard to know if people were really paying attention and better to be as transparent as possible.

As for the February CAC meeting, I and/or other City staff will most likely be leading that presentation and conversation, so it would be great if you and I could check in soon to talk about how it will go. Do you think we can put a call on the calendar for next week?

Thanks,

Emily

I guess that will work. My one hesitation is that if we don't get good buy in from the community I don't want us to prematurely go to the next stage. I want to make sure that we are moving ahead with as much of the community behind this project as possible. Thanks so much and see you tomorrow.

Hi Lisa,

Apologies for getting in touch about this after hours on a Friday—but we just had a chance to talk to the development team about their outreach plan, and we'd like to run a change by you in advance of Monday's CAC meeting.

We'd like to have the CAC meet in February so that staff can provide a more thorough overview of our upcoming legislative milestone, fiscal feasibility findings at the Board of Supervisors. (We've described this in general terms at a few CAC meetings, but I don't know how well it's registered with folks.) We're on track to go to the Board in early March, so a Feb. 8 CAC meeting (our regular date) would be the right time to share that information.

They'd proposed doing an open house in February and the next CAC meeting in March, but we're hoping to flip those two meetings (CAC meeting February, open house March). Does this sound workable? The development team is on board and pointed out that it would have the added benefit of additional coordination with City College prior to the open house.

Let us know what you think. We know that all of the last-minute communications leading up to Monday's meeting have been frustrating and ask for your patience with yet another one!

Thanks,

Emily

That is a great idea. And we may even want a special session which we can discuss with the CAC.

Lisa,

It's a great point. The development team will touch on some of this topic next Monday. I'd suggest that after their presentation we chat a little more about what/how/when to provide updates. Sound ok?

Thanks!
Jeremy

Subject: Update on Planning

Given all the changes that have occurred over the past two years, I would like to recommend that we need a session focused on understanding the current legislation, median income levels and how we are doing on the goal of building more housing. It would be an update to the session that Mike Martin did at the very beginning of the project. Can we discuss/figure out when to make this presentation? Thanks so much!
