Seung Yen is correct that the plans are slightly different. You are correct in that what we sent is more detailed and shows the evolution of our thinking. The plans and diagrams we are using in our community process have evolved from where we were when we submitted the EE. The EE base plan and variants will remain the same as we continue to develop the site plan.

Hope that helps explain the variations.

Hi Seung Yen,
Since the focus is feedback on site plan elements, we should discuss the most up-to-date set of designs. I'm assuming that these designs represent updates since the environmental application submittal.

Project team, if the presentation does not show the most up-to-date designs, please bring those instead.

Hi Carli,

Thank you for forwarding the presentation. I just realized that the diagrams in the presentation are different from the set of diagrams that our EE team is reviewing and commenting. For consistency, I'd recommend reviewing the same set of the diagrams, but this can be a discussion topic for tomorrow. Let me know what you think.

Best,
Seung Yen

Hello all,
Attached is the presentation of the Balboa Reservoir site that we'll go through at tomorrow's meeting. SFMTA colleagues, please be prepared to discuss any standards that the project should be complying with.

Subject: Balboa Reservoir site-transportation meeting (SFMTA and Project team)

When: Friday, July 13, 2018 9:00 AM-10:00 AM (UTC-08:00) Pacific Time (US & Canada).

Where: 1SVN, 7th Floor, Noe Valley Conference Room (1SVN 7075)

All,
Balboa Reservoir is ramping up. We're going to hold monthly meetings with the project team to discuss site design/transportation issues.

Kearstin, please forward to your team. Please also send any materials/presentation at least 2 days in advance of the meeting so that we have time to review and we can use the meeting to share feedback.

Carli
