Hi Leigh and Kearstin,

We deeply appreciate you taking the time to present to the CAC to get them up to speed about the project. We understand that there has been a range of support and opposition for the project. OEWD has engaged the CAC and brought them along while showing receptivity to their input and guidance. Thank you for addressing their key concerns and questions.

I look forward to working with you in the future and will touch base early 2020 about bringing you back to discuss sustainability and utilities before the designs get finalized. The CAC meets monthly so we'll be in touch as 2020 gets nearer.

Lastly, I wanted to give you a heads up that Tomasita Medal, loosely affiliated with City College of SF called me today to update her email in our system. She had wanted to attend the CAC meeting last night but was not able to. She asked for the OEWD contact info who was responsible for this project so I shared your contact with her.

Thanks, and we'll be in touch.

Tracy

**Subject:** SFPUC CAC - Balboa future presentation re: sustainability

Hi Tracy,

Thank you again for coordinating our presentation to the CAC on Balboa Reservoir. I'm following up on the discussion of sustainability and utilities. We would be happy to present on this topic at a future CAC meeting once we have more detail to our plans. Probably January or February of 2020 would be a good time frame. I don't know how often the CAC meets but you can feel free to put us on your future calendar and we can confirm a date closer to the time.

Best, Leigh
