All, attached are the project sponsor's comments on the Transportation and Air Quality chapters, primarily associated with a couple of the mitigation measures that we believe we need to discuss. We have no comments on the other sections of the screencheck draft EIR.

Subject: Balboa Reservoir - Screencheck Draft SEIR Submittal

Hi Jeanie,

Below are links to download the following Balboa Reservoir Screencheck Draft SEIR/Initial Study submittal items:

1. Compiled PDF of Screencheck Draft SEIR. The compiled PDF includes the figures and appendices (including Initial Study)
2. Clean word files of each EIR section, initial study, NOA of EIR, NOC form, and MMRP
3. PDF files of the redlined ADSEIR-2/IS-Screencheck submittal. Responses to comments are highlighted in yellow or gray.
4. Revised Draft Agreement to Implement Mitigation Measures (word file)

Please forward to other reviewers as needed and provide consolidated comments to ESA by **Wednesday, July 10, 2019**. The consultant checklist is attached. Let me know if you have any issues downloading the files.

Sponsor team: Jeanie will confirm separately when the sponsor team should provide comments.

As with last time, page number references are all formatted and cross referenced by our Pubs team, so there's no need to update those in your review. As you move through your review in track changes, page number references will automatically become obsolete and inaccurate, but our Pubs team updates page number references with each new draft you see as part of their formatting of the document.

If the cross reference field track changes are distracting, please take the following steps: (1) turn off track changes, (2) select all (ctrl+a), (3) press F9. Taking these steps will clear up the cross referenced fields. Turn track changes back on and you can continue with edits. Hopefully this eases your review a bit.
